

Hi, I'm Frank

Dedicated and self-motivated Python/Django Developer

Hands-on experience in building **web applications**, **REST APIs**, and **desktop applications** using **wxPython**. Passionate about clean code, scalable architecture, and continuous learning.

Tech Stack

- **Languages:** Python, JavaScript, SQL
- **Frameworks:** Django, Flask, wxPython
- **Databases:** PostgreSQL, MySQL, SQLite
- **Tools & Platforms:** GitHub Actions, Docker, PyPI, TestPyPI
- **Testing:** Pytest, Coverage

My Packages

`pypi` `v0.2.0`

A Python tool for benchmarking DNS performance.

Workflows & CI/CD

`CI Tests` `passing`

`Publish to TestPyPI` `passing`

`Test and Publish to PyPI` `passing`

GitHub Stats

Joseph O. frank's GitHub Stats

Most Used Languages

Currently Exploring

- Advanced Django features (signals, middleware, async views)
- Packaging best practices for PyPI
- Improving CI/CD pipelines with GitHub Actions
